RC | STEEL FRAME

THE KEY TO A BEAUTIFULLY FINISHED HOME IS THE WAY IT STARTS

THE INTEGRITY OF YOUR HOME IS ESTABLISHED UPFRONT – WITH THE FRAME

BEFORE YOU CHOOSE THE BENCHTOPS AND BASINS,

before you choose the windows and blinds, and before you choose the doors and floors, first choose the one thing that truly supports the whole house: the frame.

A house frame made from TRUECORE® steel is strong and durable. It will give a house the inner strength to become your dream home, now and for the future.

WHEN YOU CHOOSE A HOUSE FRAME MADE FROM TRUECORE® STEEL, **YOU'RE ACTIVELY MAKING A CHOICE THAT IS:**

REASSURING FOR YOU AND YOUR FAMILY

- TRUECORE® steel is 100% termite and borer proof
- It's not treated with insecticides to keep termites from eating your frame, so it is an ideal choice for those seeking to minimise the use of insecticides in their home
- TRUECORE® steel won't ignite or contribute to the spread of house fire, giving you added peace of mind

A LONG-TERM DECISION

- House frames made with TRUECORE® steel are straight and true and built to stay that way
- TRUECORE® steel won't shrink, twist or warp over time, so there's less chance of sticking windows, jammed doors, and wavy roof and wall lines
- TRUECORE® steel has a reassuring warranty of up to 50 years for eligible applicants[1]

FORWARD THINKING

- House frames made with TRUECORE® steel are a great choice for modern Australian homes
- Their impressive strength-to-weight ratio allows for wide spans and contemporary open plan design to suit comfortable family living

MADE AND BACKED BY BLUESCOPE

- TRUECORE® steel is proudly manufactured in Australia by BlueScope, the manufacturer of COLORBOND® steel
- You can rest assured that all TRUECORE® steel is made to all relevant Australian Standards[2] and rigorously checked for quality and consistency
